#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) Responsive to communication(s) filed on 31 January 2007.
- 2a) This action is FINAL.                    2b) This action is non-final.
- 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

***Election/Restriction***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

**Group I, claims 1-14, and 33-34,** drawn to a medical or dental turbine handpiece with a torque transfer arrangement and a dental burr having a shaft with a non-circular cross section.

**Group II, claims 15-17, and 23-24,** drawn to a medical or dental turbine handpiece and method of operating the same comprising air bearings and separate bearing air supply.

**Group III, claims 18-22,** drawn to a medical or dental turbine handpiece comprising a radial air flow turbine.

**Group IV, claims 25-26,** drawn to a medical or dental turbine handpiece having a swivel angled connector.

**Group V, claims 27-29,** drawn to a medical or dental turbine handpiece comprising a turbine autostop arrangement.

**Group VI, claim 30,** drawn to a medical or dental turbine handpiece including an ergonomic neck portion.

**Group VII, claims 31-32,** drawn to a medical or dental turbine handpiece including a drive head quick connection arrangement.

2. The inventions listed as Groups I-VII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

1. Groups II-VII lack the torque transfer arrangement and a dental burr having a shaft with a non-circular cross section claimed in group I.
2. Groups I, and III-VII lack the separate bearing air supply claimed in group II.
3. Groups I-II, and IV-VII lack the radial air flow turbine claimed in group III.
4. Groups I-III, and V-VII lack the swivel angled connector claimed in group IV.
5. Groups I-IV, and VI-VII lack the autostop arrangement claimed in group V.
6. Groups I-V, and VII lack the ergonomic neck portion claimed in group VI.
7. Groups I-VI lack the drive head quick connection arrangement claimed in group VII.

2. A telephone call was made to Mr. Robin Asher on June 22, 2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or

Art Unit: 3709

species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hao D. Mai whose telephone number is (571) 270-3002. The examiner can normally be reached on Mon-Thur 7:30am - 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kenneth Bomberge can be reached on (571) 272-4922. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
